ARISTÓTELES: TRADUÇÕES E COMENTÁRIOS ANTIGOS E MEDIEVAIS

Esta bibliografia de História da Filosofia Antiga Tardia e Medieval, dividida em diversos arquivos, lista principalmente o acervo de bibliotecas de São Paulo (as bibliotecas das Universidades estaduais estão integradas). Não é um levantamento exaustivo e correções e novas indicações são bem-vindas.

Aqui, só estão listados os comentários às obras de Aristóteles, não as obras de inspiração aristotélica (embora Avicena, por exemplo, em especial o “Avicena latino”, esteja incluído) e só eventualmente questões disputadas ou quodlibetais. As bibliografias de boa parte dos autores citados aqui podem ser encontradas nos demais arquivos de “Bibliografia”. Em geral, foram deixadas de lado problemas de atribuição, com as referências sendo feitas pelo nome utilizado na edição citada, mesmo em casos como os de Amônio e Filopono. Alguns comentadores renascentistas e modernos também foram incluídos.

Com poucas exceções, não incluímos nem bases eletrônicas, nem o grande número de sites pertinentes. Pedimos que o uso desta bibliografia seja acompanhado de referência à fonte.

(Veja-se o texto em modo de exibição de Estrutura de Tópicos).
